More Light on the Subject. A BLUE AND WHITE Double Quick Work Sky Light ust introduced by ROESBERG, enables him to take Daguerreotypes in a few seconds and for the greatly reluced price of 50 cents and upwards. It is also one of the best lights ever known to produce correct likenesses, either of children or adults. The red hair and hine eves have heretofore been difficult to take; but It Is no longer any trouble to give them the real artistic disposition of light and shade. The new Sky Light operates as well in loudy as in clear weather, and gives the likeness the true tone of life. The public will therefore look to their own interest by calling on Roesberg before going to any other gallery, as there you can buy cheaper, receive a tter case, and a much truer likeness than at any other lace in the city. Just received, a splendid lot of handsome cases, such

as Velvet, Papier Mache, Pcari, and other kinds too nunerous to mention. rtists can have them retaken for 50 cents, and if not bettered no charge will be made, at the Mammoth Da-guerrean Gallery, Nr. 531 Main street, between Second
